Unit Testing, Cross-browser Testing, BFF (Backend for Frontend), MFE (Micro Frontends)

Design Integration:

PSD to HTML/CSS, Figma to React

Soft Skills:

Team collaboration, mentorship, problem-solving, agile development

PROFESSIONAL EXPERIENCE

Fresh Clinics- Mid Level Web Developer

REMOTE | AUGUST 2022 – JULY 2025

- Maintained and refactored a large-scale legacy codebase (Vue.js) to improve performance, readability, and maintainability.
- Fixed critical and non-critical bugs in the Vue.js codebase, improving application stability and user experience.
- Developed and integrated new features based on stakeholder input and end-user feedback.
- Collaborated with UI/UX designers and backend developers for feature delivery.
- Ensured cross-browser compatibility and responsiveness through regular QA collaboration.
- Conducted code reviews and promoted best practices in component structure.
- Participated in agile ceremonies including stand-ups, sprint planning, and retrospectives.

Accenture – Application Developer Senior Analyst

REMOTE | AUGUST 2021 – JANUARY 2025

Projects:

- *Sunlife (Philippines)*
 - Helped deliver a modernized version of the client’s web and mobile app.
 - Created reusable components using React, TypeScript, and Storybook.
 - Implemented frontend unit testing for quality assurance.
 - Integrated with Backend for Frontend (BFF) and Micro Frontends (MFE) architecture.
 - Ensured alignment with security standards, including concurrent login restrictions.
 - Built complex UI components such as a custom searchable dropdown with advanced filtering.
 - Collaborated with UI/UX designers and backend teams for seamless feature

- integration.
 - Participated in code reviews and agile ceremonies (stand-ups, sprint planning, retrospectives).
 - Contributed to technical design documentation.
 - Integrated RESTful APIs.
 - Worked closely with business analysts (BAs) to translate requirements into functional specs.
 - Mentored junior developers and supported new team members.
- *Manulife (Hongkong)*
 - Played a key role in developing a modern client portal web application to enhance user engagement and digital services.
 - Collaborated with business analysts to translate business requirements into clear, actionable frontend specifications.
 - Built and maintained reusable, scalable components using React.js, JavaScript, and ServiceNow.
 - Contributed to the modernization of the legacy system by implementing responsive, user-friendly interfaces.
 - Wrote and executed frontend unit tests to ensure quality, maintainability, and regression protection.
 - Integrated RESTful APIs.

Virtual Wonders – FrontEnd Web Developer

REMOTE|AUGUST 2019 – August 2021

- Developed responsive marketing websites using Next.js.
- Converted PSD designs into standards-compliant HTML and CSS, ensuring high visual fidelity across devices.
- Built interactive UI features with Next.js, enhancing user engagement and improving overall site functionality.
- Conducted thorough cross-browser and cross-device testing to ensure a consistent and reliable user experience.
- Worked closely with graphic designers to maintain branding consistency.
